If you need to satisfy the A&P corequisite, we offer a partner course you can take entirely online. Students are required to provide proof of A&P course completion to receive this certification. To learn more about our partner course or submit your corequisite documentation, please visit our website: www.keralaayurveda.us/courses/programs/anatomy-and-physiology/

Distance Learning

Initially, I was wondering if the distance learning program is a good enough format to transmit such a complex knowledge as Ayurveda, but thanks to Dr. J and his crew, his promise became more than true. Doing the AWC (online) has been the best decision ever.

Refund Policy

State of California

The registration fee is nonrefundable. The student has the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later. There will be no refund if the student decides to withdraw after 60% of the classes (attendance of the 7th class) or online modules (accessed 7th online module).

Each In-Class Intensives covers the content of one online modules. Refund Requests will be processed based on In-Class Intensives and online modules accessed (whichever is greater).

A written notice from the students, about the cancellation will be required. A telephone call about cancellation or absenteeism for the classes will not be considered as true cancellation. In such cases, student will not receive the refund for that period. The refund will be processed within 30 days from the day KAA receives the official written notice of cancellation from the student. The refund check will be mailed to the official address of the student. If original payment is by credit card the refund will be processed on the credit card.

Eligible refunds will not include the applicable interest during the enrollment period.

In case the student decides to withdraw during the program, before the 60% of the classes are over, the following will be the refund calculation:

Refund Calculation Within the first seven days after enrollment or prior to October 31, 2020

Step 1 Deduct \$100 (registration) from the total tuition paid

Step 2 Remainder is tuition refund due

Example: Student paid \$5600 at the time of enrollment

Step 1 \$5600 – \$100 \$5500.00

Total refund will be: \$5500.00

Refund Calculation Seven days after enrollment or after October 31, 2020

Step 1 Deduct \$350 (registration/manual fee) from the total tuition paid

Step 2 Divide the total tuition paid by 11 (number of modules) = 'tuition per module'

Step 3 Multiply number of classes attended or modules accessed in elearning by 'tuition per module'

Step 4 Subtract the amount in step 3 from the amount in step 1. This is the refund amount.

Example: if the student decides to withdraw after completing 4 In-Class Intensives or live streaming and if they have paid the full tuition, the refund will be as follows:

Step 1 \$5600 – \$350 \$5250.00

Step 2	\$5250 / 11	\$477.00
Step 3	4 classes/live streaming * \$477	\$1908.00
Step 4	\$5250 – \$1908	\$3342.00

Total refund will be: \$3342.00

Refunds will be issued within 30 days of the date of student notification, or date of school determination (withdrawn due to absences or other criteria as specified in the school catalog), or in the case of a student not returning from an authorized Leave of Absence (LOA), within 30 days of the date the student was scheduled to return from the LOA and did not return. **The following is a list of additional fees:**

Total refund will be: \$2625

Conduct

At KAA, programs are directed toward professional training. The students shall show respect to others and observe correct standards of conduct. The Honor System embodies values of personal integrity, honesty, and trust.

Fundamental to the Honor System is the Honor Code of Responsibility, and it is upon its principles that the Academy has based the Standards of Conduct.

Honor Code of Responsibility

- Each member is responsible for maintaining a high level of civility, integrity, honesty, and trust within the community.
- Each student is responsible for presenting work of her/his own creation and refraining from representing as her/his own work that which is not hers/his.
- Conduct in keeping with the attendance policies.

Nothing in the policy prevents the student from contacting the Washington Workforce Board at 360709-4600 at any time with a concern or complaint.

Termination Policy

1. If the course is terminated after the student begins classes, the Academy may retain a percentage of the total tuition as described in the Refund Policy.
2. The official date of termination of a student shall be the last date of recorded attendance when withdrawal occurs in any of the following manners:
 - a. When the student is terminated for a violation of a published Academy policy which provides for termination; or,
 - b. When a student, without notice, either fails to attend classes or check out course videos for thirty (30) calendar days.
3. A student will be determined to be withdrawn from the institution if the student has not attended any class for three consecutive class weekends. They will be notified by telephone after two missed weekends and they will be drafted after the third weekend.
4. For a student who is on authorized Leave of Absence, the withdrawal date is the date the student was scheduled to return from Leave and failed to do so.

Suspension and Dismissal Policy

There are disciplinary guidelines to provide an environment to learn and grow independently, which give students rights and responsibilities.

- Any behavior disruptive to other students or the smooth running of the class will not be allowed.
- Students will have to pay the tuition on time.
- Students have to maintain a passing grade of 70%.

At first incidence, warning will be given. At the second incidence, the student will be suspended for the entire weekend. Student will be readmitted after suspended weekend. If the behavior persists, the student will be dismissed from the program. When the conduct of the student threatens the other student's safety, KA reserves the right to dismiss a student immediately.

Length of Time for Student Certifications*

AWC Students are expected to complete within 1 year, however they can take an additional 6 months to complete for a total of 18 months. If you have not completed within this time frame, you will be considered on sabbatical for a maximum of 6 months.

*You may contact the school for extenuating circumstances.

If after the extended time you do not complete your program, you are considered dropped. You will need to complete a new enrollment agreement and reapply for the program.

Contact Student Support Services at support@keralaayurveda.us or 888.275.9103, ext 20.

Student Sabbatical (Leave of Absence)

If a student has circumstances that prevent them from continuing the program as originally planned, they may apply for a Sabbatical. The Sabbatical will be requested by the student to the Student Support Office at support@keralaayurveda.us. The office will then send a form for the student to complete and sign.

A one time sabbatical will be allowed for the student with the provision that they will come back after a maximum of 1 year, or before. With permission from the school, the student will be allowed to resume attending classes in the next class at the level where the sabbatical was initiated.

During the Sabbatical, all access to future classes will be removed from the student's account; however, they will retain access to the modules they have completed in the elearning.

If the student is on a payment plan and wishes to suspend the plan for the duration of the sabbatical, they will have to pay a \$25/month administrative fee (non-refundable, not part of tuition); otherwise they can continue paying their payment plan per their schedule.

Resuming the Program (Re-engaging)

To resume the program, a student must notify the school (Student Support Services at support@keralaayurveda.us or 888.275.9103, ext 20) of his or her intention to resume classes and be in good academic and financial standing. They will need to fill out a new Enrollment Form for the semester they are restarting. It is not necessary for a student to retake any previously completed classes if the course of study resumes within the 12 months from the beginning of the Sabbatical.

When an agreed-upon Sabbatical has expired, a student must return to the program or be automatically withdrawn. In the latter case, a student will need to apply for readmission to a new class at the tuition rate in effect at that time. This is also the case if a student chooses to withdraw rather than go on a Sabbatical. See "Refund Policy for Withdrawal" below for further information on withdrawals.

Financial Aid

Kerala Ayurveda Academy does not offer state or federal financial aid to students. If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If the student has received federal student financial aid funds, the student is entitled to a refund of the monies not paid from federal student financial aid program funds.

If a student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur:

- The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.
- The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

“Notice - Any holder of this consumer credit contract is subject to all claims and defenses that the debtor could assert against the seller of the goods or services obtained pursuant hereto or with the proceeds hereof, recovery hereunder by the debtor shall not exceed amounts paid by the debtor hereunder.”

“Kerala Ayurveda Academy does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, and has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11U.S.C. Sec. 1101 et seq.).”

 - Ayurvedic practitioners are not licensed in the United States, and its practice is not regulated by state or federal agencies.  - We might say that Ayurveda's current status in the U.S. is analogous to the Chinese medical profession during its early years in the 1970s. While each state does not regulate the practice of Ayurvedic medicine itself, some aspects of Ayurvedic practice may fall within the scope of professions that are regulated. Students and graduates of the academy should be careful not to allow their practice to

overlap one of those regulated professions unless they are licensed in that particular profession. Please contact your local state representative for more information about regulations in your area.
